

KUNSTBEMIDDELING

Your partner in ART

Who we are

BooART is the ideal partner for offering your customers a total experience. The common thread through this total experience is art, and this in a very broad spectrum. Immerse your customers in the wonderful world of art in all its facets. We unburden you and your staff and make a proposal of what is possible, based on your wishes, the available space and the theme or 'spirit' of your company.

We strongly believe in the power of collaboration, and we like to put your location in the spotlight on our busy website. Win-win, we like that.

Where we are

BooART is present in more than 40 locations, mainly in the Benelux, but you can also find us in Germany and Austria.

You can mainly find our exhibitions at our hotel partners. Restaurants, offices, etc. can also rely on BooART

Boo ART

What we do

BooART primarily provides your space with beautiful changing artworks, but it doesn't stop there. At BooART you are not a customer, but a partner. We strongly believe in working together to create added value and have more impact.

In addition to our main activity, which consists of organizing a permanently changing art exhibition in your location, we offer many more options. Our many years of experience brought us into contact with a very varied network of artists in all disciplines. Visual artists, performing artists, musicians, designers, A.I. artists... we have all come across them on our path. And that creates opportunities.

So call on BooART for an extraordinary total concept that will be talked about for a long time to come.

Vernissage, finissage, theme evening and/or weekend,... nothing is impossible.

Artists

BooART has been able to build up a real network of national and international artists in various disciplines within the visual arts for many years. A considerable pond to fish out of, which certainly also includes the artist who can provide your company with art in a very appropriate way.

We work with starting talented artists as well as with more established ones. Every artist who participates in our projects is highly motivated and very happy to show their work to the general public

Partnerships

During the course of our existence, we met lots of interesting skilled professionals in various disciplines. By combining our strengths and passions, we managed to establish unique collaborations and long lasting durable partnerships with fashion designers, florists, DJ's, musician, editors, jewellery & watch designers, fashion photographers...
